I/GM Training Requirements for Fiscal 1960

25X1A8a

25X1A9a 1. This memorandum is in response to the request made by [REDACTED] following conversations with [REDACTED] of [REDACTED] regarding the branch training requirements for FY 1960 as related to possible courses offered by the various military services.

2. The following are known courses with the course title, location, duration and estimated number of slots required.

<u>Course</u>	<u>Location</u>	<u>Duration</u>	<u>Slots Desired</u>
Titan Familiarization Course No. 120	Martin Company Denver, Colorado	1 week	8
Guided Missiles and Special Weapons Orientation	Fort Bliss, Texas	1 week	8
Naval Guided Missile Orientation	Dem Neck, Virginia	1 week	4
Air Force (BMD) Ballis- tic Missile Orientation	Santa Monica, California	1 week	8

3. The following are requirements related to specific aspects of individual weapons systems. It is requested that information be obtained regarding the availability, scope and dates of short orientation courses given by the military services or industry relating to these subjects. The actual number of slots required for each course will be determined when course descriptions are available. Accordingly, the estimates below are tentative.

4. In addition to the above, [REDACTED] has a current need for about three slots for an orientation course relating to the U.S. Space Program. It is suggested that both ARPA and NASA be contacted in this respect.

5. It should be noted that the foregoing does not include the requirements of other ORR branches, some of which would presumably wish to participate in certain of the courses indicated above.
